FAQ

Q: Why this book?

A: I needed a simple 1 page step-by step guide to teach everything to my team and then for their team too. 1 simple PDF is easy to pass out and share and requires no hosting etc.

Q: Why Promote Traffic Monsoon, My Paying Ads, LeadLightning and 4Corners?

A: They all have their individual qualities and as a set they are all VERY powerful. Traffic Monsoon ad-packs are \$50 and for some that is rather highly priced and above many people's budgets So My Paying Ads can satisfy this because Ad-Packs start at only \$1 per ad-pack. So now we have a system for everyone's budget level. Also LeadLightning was added because people needed a sales funnel system but normally a sales funnel isn't easy to setup using conventional methods. You need invest in an expensive auto responder service that charges you monthly.

With LeadLightning you get the full funnel with pre-written email sequences promoting you primary business so this system works perfectly with leadlightning.

We also added 4 corners because 4 corners gives you that additional viral explosion meaning you will earn on multiple levels. When you send this rebranded book out there and others rebrand it deep down in your team you will continue to benefit from users who continue to promote down in your team on multiple levels deep.

Also some people may already be in at-least one of these companies that promote thus by offering 4 good companies you do at least get credit because they can join under you in at-least one or more of the other programs - it's a Win-Win!

Q: Can I join just one of the companies?

A: Yes, but not recommended since you will loose potential earnings when sharing this book. It doesn't take much effort to join each company so even if you do nothing within each company after you join at least you can still get credit when others re-brand this PDF and share it out and you will build your team automatically.

Q: Do I need an Auto Responder?

A: Not if you don't want to... Auto responders can help generate leads so they are very powerful but this book can be shared out directly within FaceBook, Email, Download from your blog or website, Or direct link from a classified ad such as backpage.com as I teach in our members area.

Q: Will you update this ebook

A: Yes, I will and your PDF and landing pages will always get updated automatically so your users will always get the updated and latest information.
